

**You may notice that our School Supply List is considerably shorter than usual. Lincoln County Department of Social Services, with approval from the Lincoln County Commissioners, started a new project a couple of years ago called Project School Supply. They believe that it is important for children to stay in school and they feel by providing the basic supplies it can help benefit their success in school. They also know that we are in hard economic times right now and they hope that this project will provide some relief for families this school year. They have received a grant that makes it possible for them to purchase the majority of school supplies that parents were responsible to buy for the 2011-2012 school year. This will benefit all of Lincoln County Schools.**

**\*\*\*Please look over the items listed below that are being provided to you. You may want to purchase more of some items.\*\*\***

### **Middle School Students**
